DELOREY SAYS HIS 'CONFESSION' WAS ALL A 'PURE LIE'

"The confession that I made to the police was a pure lie. It was all a lie. I never saw Annie Mullins, Manire and I were never in Squires Field together. I slept at home all night on the night Annie Mullins was murdered and worked for Mr. Harding the next day."

That is what the story told on the witness stand today by Peter C. Delorey, who, with James Manire, is charged with the murder of Annie Mullins. The East Cambridge coroner, where they are on trial, was amazed as he heard his sensational detail. He had followed Manire on the stand, the two seemed both being the first witnesses called in the reconstruction case by the defense. Manire had, under the eyes of a grilling cross-examination, stuck to his story that he was at Billerica the night of the crime.

Delorey, questioned by District Attorney Higgins, asked:

Q—While at the stationhouse in Cambridge on the night of April 2, did you

BIG MEN IN SUGAR TRUST ARE INDICTED?

NEW YORK, Nov. 12.—Several indictments against some of the highest officials in the American Sugar Refining Company—the Sugar Trust—have been found by the Federal grand jury. It was declared today that the men have already been served.

The indictments, however, are still without the seal of the court and the identity of the men involved will not be revealed until they are arraigned.

These indictments were found as a result of the startling disclosures of thefts to the Sugar Trust from the government through fraudulent underpayment of customs duties and in spite of the fact that the trust had already been forced to restore more than \$2,000,000 to the government.

That the Sugar Trust is thoroughly alarmed was indicated when six of its confidential officials resigned.

These men are: Frank Wenzel, for twenty-five years the private secretary of the late H. O. Havemeyer, former treasurer of the trust; superintendent of buildings; William H. Wright, chief electrician and adviser of the old regime; James P. Beardsley, general superintendent; John James, chief engineer of the Brooklyn plant; William Fisher, chief of construction.

These resignations will be accepted at once by President Washington Thomas of the trust, who declares he is anxious as fast as possible to get these men out of the company.

Mr. Thomas is the Boston man who became head of the Sugar Trust on the death of Havemeyer. He was comparatively unknown among business men in this city. He is a very rich man. Mr. Thomas still lives in Boston and spends three days a week in his Broad street office here. He represents the enormous holdings of Sugar in New England.

WHOLE OF WEST INDIES IS SWEEPED BY GREAT STORM

NEW YORK, Nov. 12.—The cable office of the Western Union Telegraph Company announced at 1:30 this afternoon that private messages had been received at Holland Bay, with which the Western Union has cable communication by boat from Kingston, to-day, to the effect that the hurricane which had been sweeping the island all week had stopped and that calm weather was then prevailing.

While heavy damage was reported there was no known loss of life. The Postal Telegraph-Cable Company had no communication with Jamaica. Its cable to Puerto Plata and Martinique also was interrupted to-day, cutting off communication with Martinique, Guadeloupe, Matanzas, Dutch and French Guiana. The only West Indian points to which the company still reached were in Cuba, Hayti and Santo Domingo.

COLON, Nov. 12.—Reports received here to-day from Jamaica declare that immense property loss resulted from the hurricane but that there was no loss of life. The coffee plantations suffered most heavily.

Gets Brief Message

LONDON, Nov. 12.—Kingston, Jamaica, is still cut off from the world. A message from the storm-swept island was received here to-day discrediting rumors of an earthquake.

The message came from Holland Bay, a port on the extreme southeast point of the island. It reports that the heavy rains which have flooded the island continue, with high northeast winds and had seas, but declares that the reports of the hurricane first received were exaggerated.

This message came from the cable company agent at Holland Bay. The companies here to-day declared that they were yet unable to communicate with Kingston, which was last heard from Saturday. Much anxiety is felt here for shipping in the waters about the island.

Washington Gets No News.

WASHINGTON, Nov. 12.—Officials of the United States Weather Bureau are using every possible means to get in communication with Kingston, Jamaica, to learn the extent of the damage done by the terrible hurricane which has been raging over the West Indies all of the week. Their anxiety led to a mistaken report this morning that Superintendent of Telegraph Robinson of the Weather Bureau had succeeded in getting a report over the cable from Kingston to the effect that while damage was heavy and widespread there had been no known loss of life. Professor Garriott, chief forecaster, gave out the news as coming from Mr. Robinson. The latter said Professor Garriott must have misunderstood him, that communication to-day, as was the case yesterday extended only to Holland Bay.

Great Storm in West Indies

The United Fruit Company steamer *Hera* arrived in Jamaica to-day from Jamaica one day later, having been buffeted about by a terrible hurricane ever since she left Port Moresby, Jamaica, last Friday night. "I am not surprised to hear that there has been a storm in Jamaica," said Captain Rynning, when the news of the blowing of the cables from Jamaica was told him. "We left Port Moresby at 10 o'clock last Friday night, and before we had reached the outer harbor there we were struck by a terrible gale. It came from the northeast, and we either lay to or went under half speed until last Wednesday."

The storm was a regular hurricane. It increased after two days. Our ship was tossed about. We had no control over her.

It was a terrible experience. I shall not be surprised to hear some bad news from Jamaica when communication is opened up again."

The arrival of the *Hera* now leaves a total of eight United Fruit Company steamers now in Jamaica waters, and the company officials in Boston are worried over "what are we now to do with these boats?"

The *Hera* brought in four passengers to-day. Mrs. Matilda Hughes and her three children, who are residents on the island. They were terribly frightened during the storm.

On Friday morning a storm in the waters of the West Indies was brought to rest to-day by the steamer *Amberley* from West Indian ports. Captain Clark reported that on last Friday, while in the Gulf stream, the sea began to boil and that he was forced to lay to for nearly twenty-four hours while the curious disturbance upon itself. The movement of the sea was not accompanied by any unusual wind.

ANTOINETTE PERRY TO WED NEW YORKER

DETROIT, Nov. 12.—Private affairs have been settled here of the engagement of Miss Antoinette Perry, a society girl of Detroit and niece of former Governor John C. Davenport, to Mr. William C. Perry, a prominent New York City, to Frank Forester of New York. It is said that Mr. Forester is the president of a large electrical concern in New York and is a millionaire.

Miss Perry was chosen for the wedding because of her beauty. They were married in 1903. Professor McCosh lived here in 1903.

"MOTHER" MCCOSH IS DEAD AT PRINCETON

PRINCETON, N. J., Nov. 12.—Mrs. John McCosh, who from 1886, when her husband was president of Princeton University, was "mother" to thousands of students, died today at an advanced age. She survived her husband, who was recently President of the university, about fifteen years. They were married in 1888. Professor McCosh lived here in 1903.

TERRIBLE TRAGEDY IN MARYS

Has all life been wiped out on that planet? Absorbing discussion by the leading scientists of the day in the Sunday American.

HELD ON CHARGE OF HITTING CONSTABLE

Isaac Riverson is locked up at the Chelsea police station on the charge of assaulting Constable George F. Brady, who was on duty in the Chelsea police station. Riverson was taken to the station on the charge of hitting a constable. He is a very rich man. Mr. Thomas still lives in Boston and spends three days a week in his Broad street office here. He represents the enormous holdings of Sugar in New England.

IRISH LORD'S SON WOODS BOSTON GOLF

In a quest, it is said, for the hand of one of Boston's most beautiful society girls, Captain Arthur Hill of the Royal Irish Lancers arrived here to-day on the White Star liner *Cymric*. The rumormongers declared, based on the advice of the Duke of Manchester, in Ireland, when the Boston golf was the guest of the Duke of Manchester at a house party, and the young Captain, who is stationed here in the city of London, is said to be a very rich man. He was taken to the Massachusetts General Hospital.

Taft as President of Middlebury College.

PELETIER TO BE SWORN IN TO-MORROW

Joseph C. Peletier will be sworn in as District Attorney of Suffolk County tomorrow morning at the office of Secretary of State Olin. He will immediately after that go to the Court House and assume his official position.

THE WEATHER.

Fair to-day. Saturday fair and calm. Westerly winds. Sea calm. 6:12 a. m. to 12:30 p. m. High tide, 10:17 a. m.; 11:31 p. m.

you're not thru reading the Boston American

until you've glanced over, at least, the want ad columns.—they are the human interest pages of a great daily.

—In them we find mirrored the wants—the needs—the sorrows—the joys—of many, many people, combined often with a dash of humor—a little pathos—a touch of nature—all vitally interesting, instructive and profitable.

ROOSEVELT PARTY REPORTS ALL WELL

LONDON, Nov. 12.—A dispatch received here today from New York, British East Africa, says that a committee arriving there from New Haven, which left New York at 12:30 a. m., to-day, has been met by the British East Africa party. The committee is reported to be all well.

TO TO REAK AGED WOMAN'S MILLION WILL

TAINTON, Nov. 12.—Polly Pennington, attorney and co-ventress of fashionably dressed men and women of Massachusetts, New York, Rhode Island, Connecticut and other States and from Washington, D. C., crowded the Bristol County Probate court today, all interested in the will of the late Mrs. Elizabeth Noble of Mansfield, who died in April, leaving \$200,000 to be distributed in charitable bequests and \$200,000 to her sister.

Mrs. Noble was sixty-four at the time of her death. That the testatrix was of sound mind when she made her will and that the will was the expression of her free will and the intention of the testatrix are the two points in the contestation of the relative and heirs who are represented by twenty lawyers.

Charles C. Haggerty of Mansfield and Robert A. Moore, president of the New American Bank, New York, the executor, and the five charitable institutions recipients of Mrs. Noble's favor, are represented by ten attorneys who are defending the instrument.

The institutions to benefit should be the will upheld by the court, are the New York Society for Improving the Condition of the Poor, the Children's Aid Society of the City of New York, the New York Ladies Home Mission Society of the City of New York, the Episcopal Church, the American Home Mission Society of Boston and the State Association of the Young Men's Christian Association of Massachusetts and Rhode Island.

To Allege Eccentricities

Among the prominent causes endeavoring to break the will is "Charles J. Shearn of New York, counsel for Miss Ellen Bell Johnson, one of the co-ventresses for Attorney-General Abner D. Pillsbury of Massachusetts, Charles J. Shearn of New York and Francis, Mottley & Bryson of Boston.

Alleged eccentricities on the part of Mrs. Noble, including a fondness for dogs and other pets, will be alleged to be witnesses for the contestants.

Alfred McCullough of Boston, for the executor, made the preliminary statement of the case to Judge McCullough.

McCullough said that Mrs. Noble had lived in Mansfield for thirty years, and that she had been married to her husband for thirty years.

Will Witness Testifies

McCullough said that he had been called to the stand to testify to the fact that Mrs. Noble was of sound mind and memory at the time of her death. He said that he had known Mrs. Noble for many years, and that he had seen her at the time of her death.

McCullough said that he had seen Mrs. Noble at the time of her death, and that he had seen her at the time of her death.

McCullough said that he had seen Mrs. Noble at the time of her death, and that he had seen her at the time of her death.

FRENCH BOOKMAKERS TAKE BETS ON RESULT OF STEINHEIL TRIAL

PARIS, Nov. 12.—Enthusiasm over the Steinheil trial, which is rapidly drawing to close, reached its height today in a picturesque manner, which could be found nowhere outside of France.

A crowd of bookmakers began to take bets on the outcome of guilt or not guilty. A large number of private wagers have also been made.

The crowd about the Palais de Justice today reached those of the three days of the trial when Miss Steinheil herself was on the stand. The similarity between this case and the Dreyfus case is strikingly exemplified by the fact that while the entire nation has been watching the trial, the French bookmakers have been betting on the result.

Some Questions To Be Answered.

Will this "tragic widow" be found guilty of murdering her aristocratic husband? What were the secrets of her career kept hidden from the public? If she did so far in the background, who did and why has the government, which has been so successful in the past, failed to bring her to justice? These are the questions which the French public is asking.

There are many questions which are being asked, and there are many answers being given. The French public is interested in the trial, and they are asking questions which are being answered.

The French public is interested in the trial, and they are asking questions which are being answered.

Attorney General Speaks

The French Attorney General, M. Béraud, today made a statement to the press. He said that the French government was interested in the trial, and that it was asking questions which are being answered.

London Skeptical of the New Cancer Cure.

LONDON.—The report that a curative serum for cancer had been discovered in the research laboratories of Columbia University in New York was received here with skepticism at the headquarters of the Imperial Cancer Research Fund here. The report last week, that the serum was "probably" a success, was stated, "from a misunderstanding of some recent work done by Dr. Woodcock, who showed that if you transplant, for instance, a piece of a mouse's own tissue, into a healthy animal, and this tissue becomes absorbed, it renders the mouse immune to cancer inoculation. If the piece of cancer tissue is now extracted from the skin of this mouse this cancer tissue will be thrown off instead of taking root and developing. Dr. Woodcock does not mean that the curative serum has been discovered, but it marks an important advance in our knowledge of cancer and its relation to normal tissue."

DARTMOUTH ON WAY TO BATTLE IN THE STADIUM

100 MILES AN HOUR MADE AT ALANTA

By J. C. KERRISON

The speed attained by the cars in competition at Atlanta, surpasses anything previously recorded in the motor world. The 100-mile race was the most important of the season, and gave one an idea of what can be done on a properly prepared track. The average speed of the cars was 100 miles an hour, and the fastest car, driven by the late Earl Gray, averaged 100 miles an hour for the entire race. The race was held on the 10th of the month, and the cars were in the stadium for the first time. The race was a great success, and the cars were in the stadium for the first time. The race was a great success, and the cars were in the stadium for the first time.

A second incident of the extensive tour of the cars, which was held at Atlanta, was the race between the cars of the late Earl Gray and the cars of the late Earl Gray. The race was a great success, and the cars were in the stadium for the first time. The race was a great success, and the cars were in the stadium for the first time.

FOOTBALL OF COLLEGES

The new season of the football of colleges is now under way. The season is now under way, and the colleges are in the stadium for the first time. The season is now under way, and the colleges are in the stadium for the first time.

TODAY'S STOCK MARKETS; FINANCIAL NEWS STATE NEWS INVESTORS

Approach regarding the monetary situation is the dominant influence, not only upon the stock market, but upon the entire financial world. It is the only factor which is likely to influence the market.

The hopeful outlook on the part of the market is not so much due to the fact that the monetary situation is improving, but to the fact that the market is becoming more active.

Monetary conditions will continue to improve, and the market will continue to become more active. The market is becoming more active.

From what can be learned in the financial district the large number of securities have been sold, and the market is becoming more active.

GOOD TONE IN STOCK MARKET CUPPER STOCK OPENS STEADY

NEW YORK, Nov. 12.—Stocks were steady in Wall street, without material change in an important item during the early trading. The decline in the Hill estate copper was not checked for the first time since it was a fraction higher, although the market was not very strong.

With the re-establishment of better financial conditions in Europe, interest in the monetary situation has been transferred to America. The low percentage of bank reserves to deposits and the large demand of funds in the future for crop marketing have caused some concern.

It is not believed that high interest rates will result, but a steady market is expected. The market is becoming more active.

WOMEN PROTEST CRUELTY TO DUCKS

Having been the target of the cruel and senseless persecution of the ducks, which should be a picturesque feature of the city, a petition was presented to the city of Boston, asking for the protection of the ducks.
